## ROBINSONS ON TRIAL

The Variety Performers Who Are Charged with Murder.

CONFESSION OF THE PRISONERS.

They at First Asserted That the Woman Killed Lawyer Gibbs While Dressed in Male Attire-It Is Now Declared That the Confessions Were Bogus.

Buffalo, March 12.—Clarence Robinton and his wife Sadie were placed on trial vesterday, having been indicted for murder in the first degree for the killing of Montgomery Gibbs, a young lawyer, a year ago. The work of empanelling a ury consumed all of yesterday's session. When the court adjourned at 60 clock last evening eleven jurors had been selected, and the remaining juror was chosen this morning. The district attorney then began his opening argument.

The circumstances of this case are as remarkable as mysterious. Mr. Gibbs was walking alone up a residence street bordered with mansions, brilliant with lights, about 10 o'clock in the evening. Suddenly three pistol shots rang out in quick suctession, and Gibbs was found dying from a bullet wound in the head, lying in the

MR. AND MRS. CLARENCE POBINSON. driveway leading to a fashionable residence. He expired without uttering a word. His watch and money had been untouched, and there was much talk of a

scandal, to the annoyance of innocent

people in the neighborhood. No arrests were made until two months later the Buffalo police received word from

the police of Cleveland that they had Clarence Robinson under arrest on a burglary charge, and had wormed out from his pals a charge that he was implicated in a Buffalo murder.

Robinson's wife, Sadie, thinking that her husband was to be charged with murder. confessed that the she killed Gibbs herself, but refused to give any details Robinson, learning that his wife was under arrest for the Gibbs murder, told how he and his wife had gone out to "hold up" somebody that night, Sadie being attired as a man. Gibbs had resisted, and in the tussle had been shot. The district attorney has found the disguise which Sadie word on the night and other corroborative evidence and believes he has a strong case.

The defense will be that the Robinsons made a bogus confession to get out of the Willard W. Saperstone, of this city, and ex-Judge Lucius Q. Hurdesly, of Mount Vernon, O., purposes to put upon the prosecution the burden of proof, and expect to clear their clients by reason of the fact that there were no eye witnesses to the crime, and dead men tell no tales.

The Robinsons were variety actors, and for some time before the tragedy had been playing one night stands at small towns throughout the country. Their troupe had recently come to grief financially and the pair had drifted into Buffalo a few days before the shooting of Gibbs.

The prisoners were brought into court about 10 o'clock. Sadie was gowned in black. Her short hair had been subjected to the crimping frons until it hung in ringlets all around her odd little head. She wore a plain black skirt. Her jacket was ornamented with eight big square pearl buttons. Her dark blue flat hat was the base from which two black plumes stuck up. She sat in a big chair right at the shoulder of her counsel.

Clarence Robinson played the magpie in the same happy way. He wore a suit of black, a black four in hand tie, and patent leather shoes. His light red hair was carefully trimmed.

In their room was found a bank book on the First National bank of Baltimore, and several stubs indicated that the checks had been used. There was also found a typewritten letter from United States Senator Vest, dated at Washington and addressed to Governor Flower. MONTGOMERY, Ala., March 12.—Captain Kolb, who claims to be Alabama's rightful governor, left Montgomery yesterday for Birmingham to be present at the meeting of the state executive committee, called for the purpose of determining whether the party shall adopt revolutionary methods to seat Kolb. It is understood here that Kolb favors revolutionary methods. It is said the committee will be about evenly

divided on Kolb's proposition. Hon. J. C. Manning, president of the Southern Ballot Rights league and Populist leader of Alabama, said: "Kolb has been twice elected governor, but although the Alabama legislature refused to allow him a contest law, and has deprived him of his seat, he is greater than the governor in the knowledge that he has led a move ment in Alabama which is slowly, steadily and surely destroying a corrupt government. He could cause a revolution now, and get followers to march to the capitol, but we will let congress march on Oates and his ballot box stuffers, and we want public sentiment and outraged justice to rise and bury him and his cohorts. The opposition to us are the anarchists. We are the conservators of peace and the party attempting to uphold justice. The ex-ecutive committee will do nothing radical or revolutionary."

The Abduction of Emma Huston. PITTSBURG, March 12 .- Additional details of the abduction of Miss Emma Huston last December have come to light. Miss Huston answered an advertisement in the Pittsburg papers for a teacher and accepted an offer from Mahlon C. Stephens, who lived at Little Falls, a small station near Morgantown, W. Va. Stephens met her at the railroad station and conducted her to his home, about three miles distant, which she found to be a little cabin. He excused the absence of his family by saying that they were away for the night. At the point of a revolver he maltreated the girl and kept her prisoner for several weeks, tying her with ropes when he left the house. One night she made her escape. ANOTHER MINE FIRE.

The Famous Sultana Gold Mine Shaft House Destroyed.

UNCONSCIOUS WORKERS RESCUED.

Nine Men Brought to the Surface, but Two Died Soen Afterward-The Others Rescued Just in Time to Save Them from Death by Suffocation.

WINNIPEG, Man., March 12.—The shaft house at the famous Sultana gold mine, fourteen miles from Rat Portage, caught fire last evening, and before the flames were discovered they completely enveloped the building. This, of course, shut off the air supply to the mine.

The fire is supposed to have been started by a pipe in the pocket of a coat hanging on the wall. Foreman Johnson noticing the fire called on the men to assist in putting it out, but all ran away, being afraid of explosives in the drying room. Johnson rushed into the fiery room, removed two boxes of powder, and then directed his attention to an attempt to save the building. There was no fire protection, and a bucket brigade was organized, but it was of no avail, as the shaft house was completely consumed.

The fire started at 1 o'clock, and until 1:30 no effort could possibly be made to assist the men in the shaft. As soon as the ruins were sufficiently cooled it was found that the timbers lining the shuft were blazing, and water was then directed on these timbers, but in the excitement the greater portion was falling uselessly down

Shortly after 2 o'clock the fire was extinguished in the shaft, and the men descended it and found six men on the first level, apparently all suffocated. They descended to the lower level and found three more, but these men were in better condition than the others, and efforts were begun to raise them. The first three raised were suffering badly, but were resuscitated after a short time. The fourth man, John Lagier, was very low when he arrived at the surface, and died shortly afterwards. The others were in a critical condition when brought to the surface, but all recovered excepting Rudolph Erickson, who died in three hours afterward.

The seven rescued are: Alex Neilson, J. Erickson, P. Strand, W. Prynn, Charles Edgstrom, C. C. Peterson and Charles

Prynn, upon examination, was found badly burned on the back. It seems the air shaft ignited and caused suction of air from the bottom of the shaft, depriving the men of fresh air, and also causing smoke to descend the shaft, and when found all were unconscious and leaning against the side of the shaft. In a very short time all would have been suffocated to death.

Judge Miller held that the statutes covered the case of De Almagro, and he ordered the case against him dismissed.

VICTORY FOR STRIKERS.

River Operators All Agree to the Sixty-Nine Cent Rate.

RAILROAD OPERATORS DECLINE

They Declare That It Is Impossible to Pay More Than Fifty-five Cents-Two-thirds of the Striking Miners Gain Their Point. Thirteen Thousand at Work.

PITTSBURG, March 12.—The strike of the miners of the Pittsburg district has reached that point where both sides are claiming the advantage. The fourth pool operators held a conference Saturday, at which they agreed to pay the sixty-nine cent rate, and nearly all of their men went to work yesterday morning, while the remainder resumed this morning.

The river operators, at a meeting yesterday afternoon, decided unanimously to pay the sixty-nine cent rate until the barges in the river are filled and while the boating stage lasts, but the railroad operators unanimously refused to accede to the demands of the miners, and will pay ne more than fifty-five cents. They declare that it is impossible to pay more in the present demoralized condition of the market and with the keen competition from the West Virginia fields, the freight rates from that section being so much lower than from here.

By the decision of the river operators the entire district resumed work today, which creates great rejoicing among the men. President Cairns is well pleased, and says that these, together with those who have had the demand granted before, in both rail and river mines, makes the number between 13,000 and 14,000 at work out of the 20,000 in the district.

Secretary McBryde, of the Miners' union, is in this city. He says: "The arrangements suit the miners to a T. We only asked for payment of the rate agreed upon a year ago until the year ended May 1."

The stipulation in the river miners' agreement to pay the rate while the boating stage lasts will keep the men at work until the year expires.

Mr. McBryde would not talk on what action might be taken by the men at that

SHE INSURES WOMEN.

Mrs. Starkweather Believes They Are Much Better Risks Than Men. One of the most successful among the women breadwinners of the United States is Mrs. Louisa A. Starkweather, who superintends the

woman's department of a large life insurance company in St. Louis and receives for her services a salary larger than that of a United States senator, i: is said. For many years she has earned au unusually large salary for a woman. She was at

one time a school reacher at \$1,800 a year, but relin-LOUISA A. STARKquished that oc-WEATHER. cupation because she did not get a \$2,-400 position that she considered herself entitled to. She has since demonstrated that her services are worth twice as much as the coveted position paid, and it is said that her income this year will approach very near the \$10,000 mark.

She has spent 12 years in life insurance work and is now at the head of her department, with a large force of assistants subject to her direction. She is 48 years of age, but looks much younger. "I am a solicitor of insurance on the lives of women exclusively for the reason that women are such important financial factors nowadays," she says.

"Women are heavy holders of bank stock, they own and operate mines, they speculate in real estate and cattle and are merchants and manufacturers. Throughout the United States they represent millions in capital, and it is said on good authority that in 1893 the taxation on woman's property in Kansas paid the entire running expenses of the

state for that year. "Women are living better, and therefore are better risks for companies than were our grandmothers. I have in mind a number of young old women-namely, Elizabeth Cady Stanton at 79 even manages a typewriter; Miss Susan B. Anthony at 74 is both active and useful; Julia Ward Howe at 75 does not fail to give her essays and poems as she did 50 years ago: Mrs. Henry Ward Beecher at 82 is supporting herself by her pen; Mrs. Gilbert at 74 and Mrs. John Drew at 76 are both young and as graceful in the minuet as they were 40 years ago; Mrs. D. P. Bowers, 70, and Maggie Mitchell, over 50, are still charming as they enter the realm of old age.'

THE GREAT HATCHET STORY.

Said to Have Been Invented by Weems First Biographer of Washington.

There wasn't any hatchet. There wasn't any cherry tree. There wasn't any conjunction between a batchet and a cherry tree. There wasn't any "Father, I cannot tell a lie. I did it with my little hatchet." The famous story about Washington, so the latter day historian tells us, was a fairy tale invented by Mason L. Weems, the first biographer of Washington, for the purpose of impressing Young America with the great youthful virtue of the first president. Weems was a Maryland preacher who wrote biographies and sold them and other books, who was an ardent temperance reformer, and who would as readily scrape a fiddle at a dance as preach from the pulpit. He was born in Maryland Oct. i, 1759, was educated for the ministry in London and returned to America a regular minister of the Church of England.

He married Fanny Elwell of Virginia in 1795 and resided at Bellaire, Va. He was not attached to any particular parish, but preached wherever he happened to be. He frequently occupied the pul-

M. L. WEEMS,

pit at Polick, and Washington often heard him expound the gospel. He formed a connection with Matthew Carey, a Philadelphia publisher, and sold his books throughout Maryland and Virginia, traveling from place to place with a wagon load of literary wares. He cared little for creed and would fill any pulpit regardless of denomination. Just 95 years ago he published the first life of Washington. It was called "A History of the Life and Death, Virtues and Exploits of General George Washington, Faithfully Taken From Authentic Documents." The book had a great sale, and one of its anecdates of the young Washington became a national joke. Later biographers were unable to find any evidence establishing the truth of the stories, and there seems little doubt that the imaginative Weems invented them. He afterward wrote lives of William Penn, Francis Marion and Benjamin Franklin, and died at Beaufort, S. C., May 23, 1825.

Railroads In India.

The British government in India has borrowed and used for railway purposes a total of \$500,000,000. The railway receipts, which have doubled in the past ten years, now amount to about \$100,-000,000 annually.

THREE MEN FROM THE WEST. Millionaires Who Will Try to Enjoy Their

Riches In the Metropolis. Three large western cities-Chicago, Denver and Helena-have recently lost three citizens to New York, citizens whose combined fortunes are estimated to be quite \$100,000,000. The three men who have already bought property in this city are Charles T. Yerkes, the Chicago cable king; W. A. Clarke, the silver mine Crossus of Montana, and D. H. Moffat, the owner of the famous Creede mine of Colorado.

These three money monarchs may be expected to do something startling in the building way. Mr. Yerkes has already set the pace for the other rich citizons coming here from the west. He has practically completed his \$100,000 palace on Fifth avenue, at the southeast corner of Sixty-eighth street. It has a frontal of 51 feet on Fifth avenue and 125 feet on Sixty-eighth street. In the rear there is an addition 100 feet long and 25 feet wide, in which will be hung Mr. Yerkes' famous collection of old masters, valued at over \$2,000,000. It is said that this will be the richest gallery in this country. The mansion will be five stories high, of pure classical design and built of very dark American brownstone. The carving on the exterior will cost a good sized fortune. The stoop to the Yerkes mansion will be one solid block of brownstone that will cost \$20,.

Another one of the new citizens of New York, Mr. David H. Moffat, whose fortune is variously estimated from \$20,-000,000 to \$50,000,000, has had a varied career.

When a boy, he was a messenger in the New York Exchange bank, and he now owns several banks in Colorado, mines, stocks and gold galore. He practically owns all of the Creede mine. He took hold of the property which Creede discovered and built a railroad to it. He developed the mines so thoroughly that Creede is one of the largest ship-

ping points in the United States. He left New York for Iowa a score or more years ago to take a place as teller in a bank in Des Moines. While there he attracted the attention of a capitalist who wanted to start a bank in Omaha.

Mr. Moffat was made the cashier of that bank. He was in Omaha when the Pike's peak excitement began, and at that time he went to Colorado. He speculated in groceries and other staples which were needed for shipment to the mines, and he soon owned a bank.

W. A. Clarke, the third money king from the west who will settle down in New York to enjoy his millions, bas purchased from School Commissioner Guggenheimer the northeast corner of Fifth avenue and Seventy-seventh street, nine blocks away from Mr. Yerkes, for \$225,000. The lot has a 50 foot front on Fifth avenue and runs back 150 feet on Seventh-seventh street. The Fifth avenue frontage of Mr. Clarke's lot is 11 feet less than Mr. Yerkes', but it is 25 feet longer on the side street.

Mr. Guggenheimer bought it about a year ago for \$180,000, so he has made \$45,000 by the transaction. It is Mr. Clarke's intention to build a mansion that will surpass any in New York. His fortune is estimated at \$20,000,000. He owns three gold mines in the neighborhood of Butte City, Mon., and a couple of paying silver mines and is president of several railroads. He is president of a bank in Denver and one in Butte City.

Despite his riches he has been twice prevented from being United States senator. Mr. Clarke arrived in Montana 30 years ago at the head of a mule train with a pick over his shoulder. He opened a general store at Butte City and then bought mining claims, which he and his wife worked with their own hands. He is so proud of the hard work he did in those days that the checks of the banks of which he is president bear pictures of himself in his rough miner dress.-New York World.

NEW YORK IS PERISHING.

A Chicago Paper Says That Gangrene Is

Eating Out the Vitals of Gotham. New York is perishing of gangrene. The phlegm of some of the Dutch, the greed of some of the British and the purchase money of some of the merce nary Hessians of the Revolutionary time all contribute to the witches' compound that found way into the veins of the community on Manhattan.

New York gangrene became rancorous when it perceived out upon the prairies, growing steadfastly at the foot of the great lakes, a community, simple, vigorous, persistent, industrious and patriotic. Today Chicago is at her shoulders with no feeling but kindness, but without return except in jealousy and meanness.

Because Chicago has got a new postoffice building and New York has failed to get one New York is livid toward Chicago. Because Chicago retains the Indian warehouse, when its transfer was promised to New York, more mortification sets in in new glands. Because Chicago journalism refuses to accept dictation from New York, New York scolds like a beldame. - Chicago Herald.

Selling Daughters.

The Indian is uncouth in his ways, but he has learned a thing or two from the white man. One near Tacoma has tried to sell his daughters as the result of a game of chance, and of course the east is duly shocked. Why? He has the precedent of society—"cultivated" society. Daughters are sold almost every day in New York and Europe, and even in Chicago. The Indian, having lost all he had gambling, offered his daughter for \$30, with which he hoped to be able to recoup his losses. It is often the same with the man of civilization. He loses all he has in speculation and immediately looks around to see who will give the most for his daughter. She goes to the highest bidder, and he goes back to speculation. What is the difference between the two cases? Nothing, except that the Indian offered his daughter for less money. -- Chicago Post.

#### Oh! What a difference

in the evening—when a woman has cleaned house all day with Pearline, instead of the old-fashioned way. It's so much easier. There isn't a thing anywhere

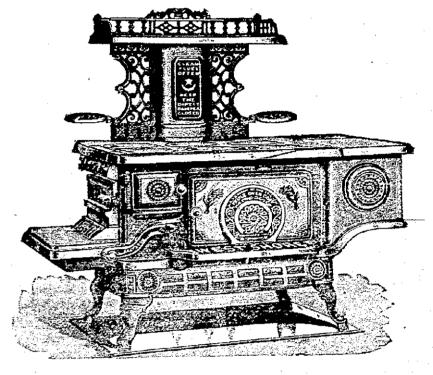

about the house (that you'd take water to) but Pearline can save you time and work on it. Saves that wearing rubbing

on your paint and wood work, too. And what a difference to every one in the house when the cleaning is done quickly and easily and without any fuming and fretting! You men ought to get together and insist on Pearline.

Peddlers and some unscrupulous grocers will tell you,
"this is as good as" or "the same as Pearline." IT'S
FALSE—Pearline is never peddled; if your grocer sendsyou an imitation, be honest—send it back.

LOCAL CO-OPERATIVE INSURANCE.

Public Meeting to Consider a Pian Proposed by the Circleville Farm and Garden Club.

Correspondence ARGUS and MERCURY. The special committee appointed by the Circleville Farm and Garden Club to devise a method of local ccoperative fire insurance, met at Mr. Doty's, on Saturday evening last, and formulated a plan which it is desired to submit to the farmer generally. By this plan insurance would certainly be much cheaper than by

the present old-time companies. It is proposed to have a public meeting of all farmers who feel interested in this matter, and this meeting has been called for Saturday of this week, at 9 s. m., at Bull's Hall, Circleville. It is hoped farmers generally will attend.

Why an Adopted Baughter's Inherit. ance Has Been Reduced.

Miss Agnes Carson, the adopted daughter of the late W. W. Carson, at one time Mayor of Newburgh, is contemplating bringing suit against the executors of her father's will to compel them to make adequate provision for her support.

Mr. Careon left an estate of \$100, 000 to his widow and the will provided that she should pay Miss Carson a sum proper for her maintenance. Three years ago, Mrs. Carson married Dr. George, a spiritualist, and since the marriage the rums allowed Miss Carson have grown smaller until, it is asserted, that they have of late become niggardly. The reason assigned by Mrs. George for cutting down Miss Carson's allowance is that the spirits directed her not to let the young woman have much money.

Tampering With Block Signals and Obstructing Electric Rallway Tracks to Be Looked After.

Ever since the electric road was opened in this city certain small boys have found amusement in placing stones on the tracks. Very er, Howard, were playing on the ice | fortunately but few accidents have happened, for the reason that the stones were usually so placed that they were knocked off by the wheels of the car without producing the deelred result, but in most instances when cars have been derailed it has been by stones being either purposely or accidentally placed where the he clung to the edge of the ice and | flange of the wheels would strike them.

Since the block signals have been in operation the boys have discovered that they can operate them as well as the conductors of the care. and as a result blocks are frequently ser and cars held when there is no occasion for it thus preventing the cars from making regular time and causing unnecessary delay to the traveling public, who place all the blame on the railway company.

The officials of the company have decided to take steps to put a stop to both these annoyances and have sought the aid of the police. They will pay a reward for the information necessary to convict any one of tempering with the signals or placing obstructions upon the tracks and whom evidence can be obtained.

Two Plans for Protecting Bondholders of the P., R. and N. E. Railroad.

Another plan proposes to break loose from the Reading, let the property go to foreclosure and organize a new company, and issue first mortgage bonds to the amount of \$7,250,-000 to take up outstanding bonds. This plan proposes to allow stockholders on payment of \$10 to receive one share of new stock for every ten shares held in the present company.

No agreement was reached at yesterday's meeting, and an adjournment was taken until March 25th.

-The paper mill has been idle the pastfew days on account of broken machinery.

-On election day a drunken fight occurred under the Palace Hotel sheds, between two of our rough

customers. -Abel Saxton, of Sloatsburgh, right up to date. Your choice for father of Mrs. R. Kikelhan, formerly of this place, was in town visiting friends last week.

-The little Vernon brothers appeared in the Presbyterian Church, Friday evening, before a large audience and rendered a most pleasing and interesting entertainment. The youngest boy, eight years old, was a marvel player on the bass viol. The receipts were \$49, of which half goes to the chapel fund.

#### IN THE RAILROAD WORLD.

-The Erie is doing a very heavy freight business at Newburgh. Four engines are used in the yard during the day and one at night, transfering cars to the New York and New England road.

-Ten cars left standing on a switch on the West Shore, at New Windsor, were broken open. Friday night. The cars were loaded with cotton, flour and other bulky freight, and it is not thought anything was taken.

#### Failed to Pass the Examination,

William G. Hastings, who was recently elected Lieutenant of the 5th Separate Company, of Newburgh, will not receive his commission, having been "plucked" by the State Examining Board. Mr. Hastings had a similar experience when examined for a commission in the 10th Separate Company.

#### A Baby's Body Thrown from a Car.

The body of an infant was found, early Sunday evening, lying near the West Shore tracks at Bogata. The body was wrapped in a newspaper and it is supposed that it was thrown from the vestibuled train which had passed shortly before the body was found.

#### The Doctors Endorse It.

At a regular meeting of the Genesee County (N. Y.) Medical Society, the physicians of the county passed a vote of thanks for samples of Gilmore's Aromatic Wine, which had been presented to the society, and said that they recognized the remedy as being adapted to a large class of summer diseases. Physicians everywhere recommend this excellent medicine, especially to their lady patients. Sold by all druggists for \$1.00 per bottle,

Rebecca Wilkinson, of Brownsvalley, Ind., says: "I have been in a distressed condition for three years from nervousness, weakness of the stomach, dyspepsia and indigestion until my health was gone. I had been doctoring constantly with norelief. I bought one bottle of South American Nervine, which did me more good than any \$50 worth of dostoring I ever did in my life. I would advise every weakly person to use this valuable and lovely med-Icine; a few bottles of it have cured me completely. I consider it the grandest medicine in the world." Warranted the most wonderful stomach and nerve cure ever known. Sold by J. E. Mills, Middletown, N. T.

TUESDAY, MARCH 12, 1895

Paterson Socialists have nominalfull tickets in every ward to be supported at the coming election.

The Albany Argus suggests that "A free and unlimited coinage of ail and indefinite ratio is likely to be necessary to settle the expenses contemplated by the present Legislature."

Bills appropriating over \$26,000,000 are now pending in the Legislature and the supply bill, which makes provision for salaries, maintenance of public institutions and other fixed charges will amount to at least \$4,-000,000. No wonder Gov. Morton is "absolutely appalled" at the tendency of this "reform" Republican Legislature to reckless extravagence.

The Kern bill, which is said to stand a better chance of passage than any of the fifty or more excise bills before the Legislature, makes such radical changes in the system of dealing with the liquor traffic that it is attracting much attention and arousing much opposition in various quarters and from various interests, The bill is modeled after the Onio law, and abolishes all excise boards and all restraints and limitations upon the traffic in intoxicants, except that convicted felons cannot engage in the business and that provision is distance away, he breathed his last. made for local option, and if a town votes for probibition the matter is New York and Brooklyn, of \$300 in Buffalo, Rochester and Albany, of \$200 in all other cities, and of \$125 in towns and villages. Heavy penalties are provided for selling without paying the tax and for selling in towns that have gone dry. Of the money collected from the tax on liquor dealers half goes into the general fund of the county and half into the State treasury. This provision of the bill is declared to be a bid for the votes of rural legislators, since it is estimated that from the cities a revenue of not less than \$2,500,000 will be de. rived, while from the rural towns. many of which have gone dry for years the State will receive only a few hundred thousand dollars, and any device that saddles taxation on the cities commends itself to the representative of rural constituencies, The strongest opposition to the bill con es from the charitable institu. tions which have profited by the division of the excise funds of the cities. In New York city, last year, \$785,796 57 of excise moneys was divided among charitable institutions, all of which will be lost to them if the bill becomes law. The bill does not satisfy the Prohibitionists because it makes the traffic in intoxicants more open than it has been, nor does it satisfy the liquor dealers, because they regard the license fees now paid as high enough and object to a tax that doubles or trebles them.

Mr. W. H. Rogers the Unanimous Choice for President-He Declines, but His Colleagues Refuse to Accept His Dec lination - A Recess Taken.

The Board of Water Commissioners met for the purpose of organizing, last evening, as required by the

Mr. W. H. Rogers, the new member, was present as were all the holdover members. Mr. Rogers was greeted by a hearty hand shake and warmed the hearts of the members and reporters by producing from the ioner pocket of his great coat a package of Havanna's, which he passed around and as the fragrant income filled the room the members of the Board settled down in their seats ready for buginess.

The meeting was called to order by the clerk, Mr. D. F. Seward, who stated that the first business in order was the election of a president.

Dr. Douglas moved that the Board go into executive session and it was carried, Mr. Fellows voting no. The reporters left and we are only able to publish such part of the subsequent proceedings as ,we have Been able to gather from members, the clerk being out of the city.

On motion of Mr. Boak an inform al ballot for president was taken, which resulted as follows:

W. H. Rogers..... O. S. Fellows..... 1

Mr. Boak said that Mr. Rogers was evidently the choice of the majority of the Board and he moved that his election be made unanimous.

The vote on this motion was four for and none against. Mr. Rogers not being given an opportuntty to cast a dissenting vote, and he was declared the President of the Board.

Mr. Rogers arose and declined the office. He said he came into the Board expecting to be a working member and was ready and willing to perform his duties. He was unable to give the time and attention \$100. necessary to properly fill the office of president and could not expect to fill the place so long held by Mr. Canfield. He said he was not familiar with the duties of a member and could not accept.

Dr. Douglas said Mr. Rogers was the unanimous choice of the members of the Board; they had chosen him because of his recognized ability and his peculiar fitness for the duties of an executive position, and he might rest assured that as President, every member; to all of which the other members of the Board gave a hearty assent.

Mr. Boak said it had been freely talked outside that there was a ring in the Board. The sooner this idea is dissipated the better it will be for the members who have tried to perform their duties faithfully and for plications. The romance in the lives of Mr. and Mrs. Boak began two years ago last summer, in Alissouri, where Mr Boak was visiting his aunt, and where he met Miss Hayden. They mer again at the World's Fair, last summer, and promised to love each other all their days.

Returning to this city Mr. Boak began the erection of a home for the woman of his choice on California avenu . named probably in honor of the State in which the bride to be resided.

When he was taken sick and his con dition became alarming word of his illness was sent to Miss Hayden, and she gave up her school and hurried eastward as fast as the fastest express train could carry her.

She reached this city over a week ago and found Mr. Boak past the crisis of his disease but very weak. She nursed him with the most loving care and her devotion undoubtedly did much toward bringing him back

As soon as he was strong enough for the marriage ceremony to be performed word was sent to Mr. Park and the marriage took place, to-day, as above stated.

The Argus joins with all of Middletown in wishing Mr. Boak an early recovery and for him and his bride a long and happy life.

Alexander Boyd, of Forestburgh,

Sullivan county, one day last week, heard dogs barking in the woods near his house and on going out found they had a large buck at bay. They had torn his flank and had evidently been harrassing him for some time, although the buck was still making a good fight. On the approach of Mr. Boyd the dogs retired and the deer limped slowly off into the woods. On the next day the same dogs drove the same deer into Mr. Boyd's barn yard and the deer was so exhausted from the chase and his wounds that he was easily captured by Mr. Boyd and tied up in the barn. The buck is fast becoming tame and the family hope that by treating him kindly that they will be

A Beautiful Tale of Three Women Who

Bared Their Heads at the Theater. Three lames walked down the center ai-to in the National theafer Monday night. They were hats-bats of a fierid style of architecture and covered with luxuriant vegetation. Strong men shuddered and grow pale with anxiety as to where those has would eventually lorate themselves, and as the ladies slowly moved to the front the feelings of the authence verged upon the stormy and tumultuous. At last they were scated well down toward the orchestra, and at least 100 persons—those directly in the line of sight-turned wan and ghastly with despair. In a moment, however, nimble fingers were at work, and before the watchers could gulp down their first wild anguish the hats disappeared, and three sleek, shapely and inoffensive heads appeared in pure or them.

HAS REACHED WASHINGTON.

So the fashion has reached Washington. We have among us, then, the pioneers of the propaganda of mercy, consideration and gentleness. A new standard or morality has been erected. Women are showing their thoughtless sisters how to be kind as well as beautiful, gentl) as well as fair, how to bless as well as to adorn the world. Here is a tashion which recognizes humanity, a manuestation of female loveliness that makes allowance for the comfort of others. It is a new philosophy, a gospel of sweetness and light, a dispensation of true ecstasy.

Why cannot the superior set make common cause in this? Why, if they must have their hats wherewith to paralyze the vestibule and fill the aisles with pageantry as they come and go-why can they not at least follow the divine example we have chronicled and uncover when they take their seats?-Washington Post.

THE NEW WOMAN IN GEORGIA.

She Cycled Through the Strews of Atlanta and Horrified the Natives.

A few days ago, before the snow came, there was an amusing little happening on one of the principal streets of the city which bears relating. Two men from away up in North Georgia who chanced to be down here attending the United States court as witnesses in some moonshine cases were walking along talking enthusiastically about a proposition to go in and get an oyster stew for dinner. The matter of dispute seemed to be as to who should pay for the stews. They were somewhat excited and paying little attention to the rest of the world when all of a sudden a woman on a hicycleswept up behind them very close to their backs and gave the bell of her wheel a sharp whirl of a ring.

"Whoop! Don't do that again!" screamed one of them, and they both shotaway up in the air and landed many

Turning around, they saw the lady dashing on down the street, unconcernedly bobbing up serenely over the Belgian bleck.

"Gol darn my buttons," said one of the visitors to the other, "hit's one uv dem votin women dat's come down here fum de north. Dey'll be doin uv ev'ything fust thing you know."-Atlanta Constitution.

THE QUEEN'S HEALTH.

Differing Opinions on This and Other Subjects Connected With Her Highness.

Queen Victoria has been in London ecently, according to The Court Circular, but if it had not been for the official chroniclers the inhabitants of the metropolis would probably not have been aware of their sovereign's presence among them, for, save for her drives to and from the railway stations, her majesty has only shown herself in public once, and then muffled up to the eyes against the cold weather. On the strength of that solitary peep courtly but mendacious reporters have ventured to descant upon the queen's good health

and lively sparits. The fact is that she never looked so aged and wan and worn as at present. Sho is less able than ever to walk even the shortest distance without assistance, and she is bent almost double. Nevertheless the renewed talk of her abdicating in favor of the Prince of Wales may be dismissed as pure invention, for, if physically feeble, Queen Victoria is mentally a thoroughly sound woman, and she is said to retain to the fullest degree har marvelously clear perception of the most intricate affairs of state. She will start for the south of France in about a week.-London Let-

#### Taure's Popularity.

President Faure's campaign of popularity is being carried on with unabated skill and persistence. He has just paid a bill of \$20,000 for a quarter of a bottle of wine supplied to every soldier in the army, with which to drink his health. He continued his long round of visits to the hospitals of Paris, going through all the wards, including those where there are cases of infectious diseases. He visits the kitchens of public institutions and eats and drinks the regulation food and wine supplied there. The Parisians now recognize the president on these tours and cheer him wildly in the street.-Paris Letter.

#### Mandicapped, but Game.

There is a bright young man over in west Washington (old Georgetown) who belongs to one of the oldest families in that extremely aristocratic section, and everybody who is anybody knows him. Some time ago a young woman tempted him into wagering that he could grow a head of hare as long as hers. He is doing it. Already his hair reaches his shoulders, and neither ridicule nor persuasion has prevailed to induce him to visit a barber. - Rochester Post Express. A lather to His Son.

OTHERS, Do You Know that Paregoric. Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphise?

Do You Know that opium and morphine are stupelying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child

anless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of ts ingredients is published with every bettle?

Do You Know that Cactoria is the prescription of the famous Dr. Samuel Pitcher That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedles for children combined i

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was Decruse Castona had been proven to be absolutely harmless?

Do You Know that 35 average doses of Castona are furnished for 35 sents, or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.
